

Signature. SAFEGUARD

Striving to be the safest place to live and work.

ONSITE RAPID TESTING

- Signature HealthCARE can offer multiple means of COVID testing
- Our testing capabilities allow us to help keep our residents, staff members, and families safe
- Our facilities have either a BD Veritor or Quidel machine for Point of Care testing in the facilities
- Both options provide results within 15 minutes
- Some facilities also have Abbott Point of Care tests available for rapid testing, which are antigen tests with results within 15 minutes
